

Part I		
<b>ACTIVITY: CheckCredentials</b>	<b>Time:</b>	<b>12:05 - 12:30</b>
The functionality implemented by the activity was understandable to the user without any help?		
Value specification action was not clear		
<b>User could not understand:</b>	<b>Problem</b>	
<b>Component:</b>	ReadStructuralFeatures	no help needed
<b>Component:</b>	CallBehaviorActions	no help needed
<b>Component:</b>	DecisionNodes	no help needed
<b>Component:</b>	Fork	no help needed
<b>Component:</b>	ActivityParameterNode	no help needed
<b>Component:</b>	ValueSpecificationActions	minor problem understanding the purpose
<b>Special questions asked by the user - interesting notes:</b>		
It was hard for user to understand the order of execution from the diagram		
<b>Test cases and scenarios</b>		
User could understand the requirements for specifying a test case without any help?		
<b>User had trouble with:</b>	<b>Problem</b>	
<b>Scenarios</b>	no help needed	
<b>Activity inputs</b>	no help needed	
<b>Order Assertion 1</b>	order assertion incorrectly specified, but corrected after first run	
<b>Order Assertion 2</b>	order assertion incorrectly specified, but corrected after first run	
<b>State Assertion 1</b>	no help needed	
<b>State Assertion 2</b>	no help needed	
<b>Special questions asked by the user - interesting notes:</b>		

<b>ACTIVITY: ConfirmOrder</b>		<b>Time:</b>	<b>12:30 - 13:15</b>
The functionality implemented by the activity was understandable to the user without any help?			
no help needed			
<b>User could not understand:</b>		<b>Problem</b>	
<b>Component:</b>	ReadStructuralReatureActions	no help needed	
<b>Component:</b>	RemoveStructuralFeatureAction	no help needed	
<b>Component:</b>	CreateObjectAction	no help needed	
<b>Component:</b>	DestroyObjectAction	no help needed	
<b>Component:</b>	ExpansionRegion	no help needed	
<b>Component:</b>	AddStructuralFeatureAction	no help needed	
<b>Component:</b>	ReadSelfAction	no help needed	
<b>Component:</b>	Fork	no help needed	
<b>Component:</b>	CallOperationAction	no help needed	
<b>Special questions asked by the user - interesting notes:</b>			
<b>Test cases and scenarios</b>			
User could understand the requirements for specifying a test case without any help?			
<b>User had trouble with:</b>		<b>Problem</b>	
<b>Scenarios</b>		links were tricky to specify, but no major problems	
<b>Activity inputs</b>		no help needed	
<b>Context</b>		no help needed	
<b>State Assertion 1</b>		it was hard to specify property assertion	
<b>State Assertion 2</b>		specified a separate test case for this assertion	
<b>State Assertion 3</b>		specified a separate test case for this assertion	
<b>Special questions asked by the user - interesting notes:</b>			
wrong object was specified into the link end - validation missing, special syntax for 0..* links missing			

<b>Part II</b>		
<b>ACTIVITY: GetCart</b>	<b>Time:</b>	<b>13:15 - 13:20</b>
The functionality implemented by the activity was understandable to the user without any help?		
no help needed		
<b>User could not understand:</b>	<b>Problem</b>	
<b>Component:</b>	ReadStructuralFeatures	no help needed
<b>Component:</b>	CallBehaviorActions	no help needed
<b>Component:</b>	CreateObject	no help needed
<b>Component:</b>	DecisionNodes	no help needed
<b>Component:</b>	ValueSpecificationActions	no help needed
<b>Component:</b>	Fork	no help needed
<b>Component:</b>	AddStructuralFeatureAction	no help needed
<b>Special questions asked by the user - interesting notes:</b>		
<b>Test cases and scenarios</b>	<b>Time:</b>	<b>13:20 - 13:25</b>
User could read the test cases and understand the requirements implemented?		
no help needed		
<b>User had trouble with:</b>	<b>Problem</b>	
<b>Scenarios</b>	no help needed	
<b>Activity inputs</b>	no help needed	
<b>Order Assertion 1</b>	no help needed	
<b>Order Assertion 2</b>	no help needed	
<b>State Assertion 1</b>	no help needed	
<b>State Assertion 2</b>	no help needed	
<b>State Assertion 3</b>	no help needed	
<b>State Assertion 4</b>	no help needed	

<b>Special questions asked by the user - interesting notes:</b>	
<b>Test Results</b>	<b>Time: 13:25 - 13:30</b>
User understood results?	yes
User found all the bugs in the activity?	yes
User could suggest corrections needed?	yes
<b>Special questions asked by the user - interesting notes:</b>	

<b>Part I</b>	
<b>ACTIVITY: CheckCredentials</b>	<b>Time: 15:55 - 16:15</b>
The functionality implemented by the activity was understandable to the user without any help?	
no help needed	
User could not understand:	Problem
<b>Component:</b> ReadStructuralFeatures	no help needed
<b>Component:</b> CallBehaviorActions	no help needed
<b>Component:</b> DecisionNodes	no help needed
<b>Component:</b> Fork	no help needed
<b>Component:</b> ActivityParameterNode	no help needed
<b>Component:</b> ValueSpecificationActions	no help needed
<b>Special questions asked by the user - interesting notes:</b>	
<b>Test cases and scenarios</b>	
User could understand the requirements for specifying a test case without any help?	
User had trouble with:	Problem
Scenarios	no help needed
Activity inputs	forgot to set activity inputs (login and password), figured after reading the second test case requirements
Order Assertion 1	incorrectly specified on first try
Order Assertion 2	incorrectly specified on first try
State Assertion 1	no help needed
State Assertion 2	no help needed
<b>Special questions asked by the user - interesting notes:</b>	

<b>ACTIVITY: ConfirmOrder</b>		<b>Time:</b>	<b>16:15 - 16:50</b>
The functionality implemented by the activity was understandable to the user without any help?			
no help needed			
<b>User could not understand:</b>		<b>Problem</b>	
<b>Component:</b>	ReadStructuralReatureActions	no help needed	
<b>Component:</b>	RemoveStructuralFeatureAction	no help needed	
<b>Component:</b>	CreateObjectAction	no help needed	
<b>Component:</b>	DestroyObjectAction	no help needed	
<b>Component:</b>	ExpansionRegion	no help needed	
<b>Component:</b>	AddStructuralFeatureAction	no help needed	
<b>Component:</b>	ReadSelfAction	no help needed	
<b>Component:</b>	Fork	no help needed	
<b>Component:</b>	CallOperationAction	no help needed	
<b>Special questions asked by the user - interesting notes:</b>			
<b>Test cases and scenarios</b>			
User could understand the requirements for specifying a test case without any help?			
<b>User had trouble with:</b>		<b>Problem</b>	
<b>Scenarios</b>		problem with specifying links - hard to figure out the correct ends, fixed after first run	
<b>Activity inputs</b>		no problems	
<b>Context</b>		forgot to specify	
<b>State Assertion 1</b>		not clear without guidance	
<b>State Assertion 2</b>		no help needed, but wanted to specify two test cases	
<b>State Assertion 3</b>		no help needed, but wanted to compare it directly to the number of cart items	
<b>Special questions asked by the user - interesting notes:</b>			

<b>Part II</b>		
<b>ACTIVITY: GetCart</b>	<b>Time:</b>	<b>16:50 - 17:00</b>
The functionality implemented by the activity was understandable to the user without any help?		
no help needed		
<b>User could not understand:</b>	<b>Problem</b>	
<b>Component:</b>	ReadStructuralFeatures	no help needed
<b>Component:</b>	CallBehaviorActions	no help needed
<b>Component:</b>	CreateObject	no help needed
<b>Component:</b>	DecisionNodes	no help needed
<b>Component:</b>	ValueSpecificationActions	no help needed
<b>Component:</b>	Fork	no help needed
<b>Component:</b>	AddStructuralFeatureAction	no help needed
<b>Special questions asked by the user - interesting notes:</b>		
<b>Test cases and scenarios</b>	<b>Time:</b>	
User could read the test cases and understand the requirements implemented?		
needed a bit of guidance, but no major problems		
<b>User had trouble with:</b>	<b>Problem</b>	
<b>Scenarios</b>	no problems	
<b>Activity inputs</b>	no problems	
<b>Order Assertion 1</b>	no problems	
<b>Order Assertion 2</b>	no problems	
<b>State Assertion 1</b>	no problems	
<b>State Assertion 2</b>	no problems	
<b>State Assertion 3</b>	no problems	
<b>State Assertion 4</b>	no problems	

Special questions asked by the user - interesting notes:		
<b>Test Results</b>	<b>Time:</b>	<b>17:00 - 17:10</b>
User understood results?	yes	
User found all the bugs in the activity?	no, only the first one with the switched guards of the decision node	
User could suggest corrections needed?	no	
Special questions asked by the user - interesting notes:		

<b>Part I</b>	
<b>ACTIVITY: CheckCredentials</b>	<b>Time: 13:15 - 13:30</b>
The functionality implemented by the activity was understandable to the user without any help?	
no help needed	
User could not understand:	Problem
<b>Component:</b> ReadStructuralFeatures	no help needed
<b>Component:</b> CallBehaviorActions	no help needed
<b>Component:</b> DecisionNodes	no help needed
<b>Component:</b> Fork	no help needed
<b>Component:</b> ActivityParameterNode	no help needed
<b>Component:</b> ValueSpecificationActions	no help needed
<b>Special questions asked by the user - interesting notes:</b>	
<b>Test cases and scenarios</b>	
User could understand the requirements for specifying a test case without any help?	
User had trouble with:	Problem
Scenarios	no help needed
Activity inputs	no help needed
Order Assertion 1	no help needed
Order Assertion 2	no help needed
State Assertion 1	no help needed
State Assertion 2	no help needed
<b>Special questions asked by the user - interesting notes:</b>	

<b>ACTIVITY: ConfirmOrder</b>		<b>Time:</b>	<b>13:30 - 15:00</b>
The functionality implemented by the activity was understandable to the user without any help?			
no help needed			
<b>User could not understand:</b>		<b>Problem</b>	
<b>Component:</b>	ReadStructuralReatureActions	no problem	
<b>Component:</b>	RemoveStructuralFeatureAction	no problem	
<b>Component:</b>	CreateObjectAction	no problem	
<b>Component:</b>	DestroyObjectAction	no problem	
<b>Component:</b>	ExpansionRegion	no problem	
<b>Component:</b>	AddStructuralFeatureAction	no problem	
<b>Component:</b>	ReadSelfAction	no problem	
<b>Component:</b>	Fork	no problem	
<b>Component:</b>	CallOperationAction	no problem	
Special questions asked by the user - interesting notes:			
<b>Test cases and scenarios</b>			
User could understand the requirements for specifying a test case without any help?			
no help needed			
<b>User had trouble with:</b>		<b>Problem</b>	
Scenarios		no problem	
Activity inputs		no problem	
Context		no problem	
State Assertion 1		no problem	
State Assertion 2		no problem	
State Assertion 3		no problem	
Special questions asked by the user - interesting notes:			
one path of execution as a counter example would suffice, perhaps using a scenario declaration around the test cases instead of initialize clause			

<b>Part II</b>		
<b>ACTIVITY: GetCart</b>	<b>Time:</b>	<b>15:00 - 15:05</b>
The functionality implemented by the activity was understandable to the user without any help?		
no help needed		
<b>User could not understand:</b>	<b>Problem</b>	
<b>Component:</b>	ReadStructuralFeatures	no help needed
<b>Component:</b>	CallBehaviorActions	no help needed
<b>Component:</b>	CreateObject	no help needed
<b>Component:</b>	DecisionNodes	no help needed
<b>Component:</b>	ValueSpecificationActions	no help needed
<b>Component:</b>	Fork	no help needed
<b>Component:</b>	AddStructuralFeatureAction	no help needed
<b>Special questions asked by the user - interesting notes:</b>		
<b>Test cases and scenarios</b>	<b>Time:</b>	<b>15:05 - 15:30</b>
User could read the test cases and understand the requirements implemented?		
no help needed		
<b>User had trouble with:</b>	<b>Problem</b>	
<b>Scenarios</b>	no help needed	
<b>Activity inputs</b>	no help needed	
<b>Order Assertion 1</b>	no help needed	
<b>Order Assertion 2</b>	no help needed	
<b>State Assertion 1</b>	no help needed	
<b>State Assertion 2</b>	no help needed	
<b>State Assertion 3</b>	no help needed	
<b>State Assertion 4</b>	no help needed	

<b>Special questions asked by the user - interesting notes:</b>		
<b>Test Results</b>	<b>Time:</b>	<b>15:30 - 15:35</b>
User understood results?	yes	
User found all the bugs in the activity?	yes	
User could suggest corrections needed?	yes	
<b>Special questions asked by the user - interesting notes:</b>		

Part I		
<b>ACTIVITY: CheckCredentials</b>	<b>Time:</b>	<b>11:05 - 11:30</b>
The functionality implemented by the activity was understandable to the user without any help?		
no help needed		
<b>User could not understand:</b>	<b>Problem</b>	
<b>Component:</b>	ReadStructuralFeatures	no help needed
<b>Component:</b>	CallBehaviorActions	no help needed
<b>Component:</b>	DecisionNodes	no help needed
<b>Component:</b>	Fork	no help needed
<b>Component:</b>	ActivityParameterNode	no help needed
<b>Component:</b>	ValueSpecificationActions	no help needed
<b>Special questions asked by the user - interesting notes:</b>		
<b>Test cases and scenarios</b>		
User could understand the requirements for specifying a test case without any help?		
no help needed		
<b>User had trouble with:</b>	<b>Problem</b>	
Scenarios	no problem	
Activity inputs	no problem	
Order Assertion 1	forgot to specify on first try	
Order Assertion 2	no problem	
State Assertion 1	no problem	
State Assertion 2	no problem	
<b>Special questions asked by the user - interesting notes:</b>		

<b>ACTIVITY: ConfirmOrder</b>		<b>Time:</b>	<b>10:30 - 10:40</b>
The functionality implemented by the activity was understandable to the user without any help?			
no help needed			
<b>User could not understand:</b>		<b>Problem</b>	
<b>Component:</b>	ReadStructuralReatureActions	no help needed	
<b>Component:</b>	RemoveStructuralFeatureAction	no help needed	
<b>Component:</b>	CreateObjectAction	no help needed	
<b>Component:</b>	DestroyObjectAction	no help needed	
<b>Component:</b>	ExpansionRegion	no help needed	
<b>Component:</b>	AddStructuralFeatureAction	no help needed	
<b>Component:</b>	ReadSelfAction	no help needed	
<b>Component:</b>	Fork	no help needed	
<b>Component:</b>	CallOperationAction	no help needed	
Special questions asked by the user - interesting notes:			
<b>Test cases and scenarios</b>			
User could understand the requirements for specifying a test case without any help?			
tried to specify primitive types in a scenario			
wrong password was specified for the first test case			
<b>User had trouble with:</b>		<b>Problem</b>	
Scenarios		no problem	
Activity inputs		no problem	
Context		no problem	
State Assertion 1		no problem	
State Assertion 2		no problem	
State Assertion 3		no problem	
Special questions asked by the user - interesting notes:			
auto completion for brackets would be nice, links and objects specification order should not be relevant, scoping of objects for link specification, links with multiplicity many..			

<b>Part II</b>		
<b>ACTIVITY: GetCart</b>	<b>Time:</b>	<b>10:45 - 10:50</b>
The functionality implemented by the activity was understandable to the user without any help?		
no help needed		
<b>User could not understand:</b>	<b>Problem</b>	
<b>Component:</b>	ReadStructuralFeatures	no help needed
<b>Component:</b>	CallBehaviorActions	equals action was not clear
<b>Component:</b>	CreateObject	no help needed
<b>Component:</b>	DecisionNodes	no help needed
<b>Component:</b>	ValueSpecificationActions	no help needed
<b>Component:</b>	Fork	no help needed
<b>Component:</b>	AddStructuralFeatureAction	no help needed
<b>Special questions asked by the user - interesting notes:</b>		
<b>Test cases and scenarios</b>	<b>Time:</b>	<b>10:50 - 11:00</b>
User could read the test cases and understand the requirements implemented?		
user would prefer to see the use of a single scenario in two ways - with and without initialize		
<b>User had trouble with:</b>	<b>Problem</b>	
<b>Scenarios</b>	no help needed	
<b>Activity inputs</b>	no help needed	
<b>Order Assertion 1</b>	no help needed	
<b>Order Assertion 2</b>	no help needed	
<b>State Assertion 1</b>	no help needed	
<b>State Assertion 2</b>	no help needed	
<b>State Assertion 3</b>	no help needed	
<b>State Assertion 4</b>	no help needed	

<b>Special questions asked by the user - interesting notes:</b>	
<b>Test Results</b>	<b>Time: 11:00 - 11:05</b>
User understood results?	yes
User found all the bugs in the activity?	yes
User could suggest corrections needed?	yes
<b>Special questions asked by the user - interesting notes:</b>	

<b>Part I</b>	
<b>ACTIVITY: CheckCredentials</b>	<b>Time: 13:20 - 13:35</b>
The functionality implemented by the activity was understandable to the user without any help?	
no help needed	
User could not understand:	Problem
<b>Component:</b> ReadStructuralFeatures	no help needed
<b>Component:</b> CallBehaviorActions	no help needed
<b>Component:</b> DecisionNodes	no help needed
<b>Component:</b> Fork	no help needed
<b>Component:</b> ActivityParameterNode	no help needed
<b>Component:</b> ValueSpecificationActions	no help needed
<b>Special questions asked by the user - interesting notes:</b>	
<b>Test cases and scenarios</b>	
User could understand the requirements for specifying a test case without any help?	
no help needed	
User had trouble with:	Problem
Scenarios	no problem
Activity inputs	minor issues figuring out how to specify
Order Assertion 1	not quite understood before running (2 runs)
Order Assertion 2	no problem
State Assertion 1	no problem
State Assertion 2	no problem
<b>Special questions asked by the user - interesting notes:</b>	

<b>ACTIVITY: ConfirmOrder</b>		<b>Time:</b>	<b>13:35 - 14:00</b>
The functionality implemented by the activity was understandable to the user without any help?			
no help needed			
<b>User could not understand:</b>		<b>Problem</b>	
<b>Component:</b>	ReadStructuralReatureActions	no help needed	
<b>Component:</b>	RemoveStructuralFeatureAction	no help needed	
<b>Component:</b>	CreateObjectAction	no help needed	
<b>Component:</b>	DestroyObjectAction	no help needed	
<b>Component:</b>	ExpansionRegion	no help needed	
<b>Component:</b>	AddStructuralFeatureAction	no help needed	
<b>Component:</b>	ReadSelfAction	no help needed	
<b>Component:</b>	Fork	no help needed	
<b>Component:</b>	CallOperationAction	no help needed	
<b>Special questions asked by the user - interesting notes:</b>			
<b>Test cases and scenarios</b>			
User could understand the requirements for specifying a test case without any help?			
no help needed			
<b>User had trouble with:</b>		<b>Problem</b>	
<b>Scenarios</b>		was not sure at the beginning for links, but figured without help	
<b>Activity inputs</b>		no problem	
<b>Context</b>		forgot on first try	
<b>State Assertion 1</b>		no problem	
<b>State Assertion 2</b>		no problem	
<b>State Assertion 3</b>		incorrect context of OCL constraint specified	
<b>Special questions asked by the user - interesting notes:</b>			
specified each assertion in its own test case, initialize forgotten			

<b>Part II</b>		
<b>ACTIVITY: GetCart</b>	<b>Time:</b>	<b>14:00 - 14:05</b>
The functionality implemented by the activity was understandable to the user without any help?		
no help needed		
<b>User could not understand:</b>	<b>Problem</b>	
<b>Component:</b>	ReadStructuralFeatures	no help needed
<b>Component:</b>	CallBehaviorActions	no help needed
<b>Component:</b>	CreateObject	no help needed
<b>Component:</b>	DecisionNodes	no help needed
<b>Component:</b>	ValueSpecificationActions	no help needed
<b>Component:</b>	Fork	no help needed
<b>Component:</b>	AddStructuralFeatureAction	no help needed
<b>Special questions asked by the user - interesting notes:</b>		
bit of guidance needed		
<b>Test cases and scenarios</b>	<b>Time:</b>	<b>14:05 - 14:15</b>
User could read the test cases and understand the requirements implemented?		
no problem		
<b>User had trouble with:</b>	<b>Problem</b>	
<b>Scenarios</b>	no problem	
<b>Activity inputs</b>	no problem	
<b>Order Assertion 1</b>	no problem	
<b>Order Assertion 2</b>	no problem	
<b>State Assertion 1</b>	no problem	
<b>State Assertion 2</b>	no problem	
<b>State Assertion 3</b>	no problem	
<b>State Assertion 4</b>	no problem	

<b>Special questions asked by the user - interesting notes:</b>	
<b>Test Results</b>	
<b>Time:</b>	<b>14:15 - 14:20</b>
User understood results?	yes
User found all the bugs in the activity?	no
User could suggest corrections needed?	no
<b>Special questions asked by the user - interesting notes:</b>	

<b>Part I</b>	
<b>ACTIVITY: CheckCredentials</b>	<b>Time: 10:45 - 10:55</b>
The functionality implemented by the activity was understandable to the user without any help?	
no help needed	
User could not understand:	Problem
<b>Component:</b> ReadStructuralFeatures	no help needed
<b>Component:</b> CallBehaviorActions	no help needed
<b>Component:</b> DecisionNodes	no help needed
<b>Component:</b> Fork	no help needed
<b>Component:</b> ActivityParameterNode	no help needed
<b>Component:</b> ValueSpecificationActions	no help needed
<b>Special questions asked by the user - interesting notes:</b>	
<b>Test cases and scenarios</b>	
User could understand the requirements for specifying a test case without any help?	
no help needed	
User had trouble with:	Problem
Scenarios	tried to specify primitive type in a scenario
Activity inputs	no help needed
Order Assertion 1	no help needed
Order Assertion 2	no help needed
State Assertion 1	no help needed
State Assertion 2	no help needed
<b>Special questions asked by the user - interesting notes:</b>	

<b>ACTIVITY: ConfirmOrder</b>		<b>Time:</b>	<b>10:55 - 11:15</b>
The functionality implemented by the activity was understandable to the user without any help?			
no help needed			
<b>User could not understand:</b>		<b>Problem</b>	
<b>Component:</b>	ReadStructuralReatureActions	no help needed	
<b>Component:</b>	RemoveStructuralFeatureAction	no help needed	
<b>Component:</b>	CreateObjectAction	no help needed	
<b>Component:</b>	DestroyObjectAction	no help needed	
<b>Component:</b>	ExpansionRegion	no help needed	
<b>Component:</b>	AddStructuralFeatureAction	no help needed	
<b>Component:</b>	ReadSelfAction	no help needed	
<b>Component:</b>	Fork	no help needed	
<b>Component:</b>	CallOperationAction	no help needed	
<b>Special questions asked by the user - interesting notes:</b>			
<b>Test cases and scenarios</b>			
User could understand the requirements for specifying a test case without any help?			
no help needed			
<b>User had trouble with:</b>		<b>Problem</b>	
<b>Scenarios</b>		problem specifying links	
<b>Activity inputs</b>		no help needed	
<b>Context</b>		forgoten on first run	
<b>State Assertion 1</b>		no help needed	
<b>State Assertion 2</b>		written as OCL constraint	
<b>State Assertion 3</b>		tried to write in connection with number of cart items	
<b>Special questions asked by the user - interesting notes:</b>			

<b>Part II</b>		
<b>ACTIVITY: GetCart</b>	<b>Time:</b>	<b>11:15 - 11:20</b>
The functionality implemented by the activity was understandable to the user without any help?		
no help needed		
<b>User could not understand:</b>	<b>Problem</b>	
<b>Component:</b>	ReadStructuralFeatures	no help needed
<b>Component:</b>	CallBehaviorActions	no help needed
<b>Component:</b>	CreateObject	no help needed
<b>Component:</b>	DecisionNodes	no help needed
<b>Component:</b>	ValueSpecificationActions	no help needed
<b>Component:</b>	Fork	no help needed
<b>Component:</b>	AddStructuralFeatureAction	no help needed
<b>Special questions asked by the user - interesting notes:</b>		
<b>Test cases and scenarios</b>	<b>Time:</b>	<b>11:20 - 11:35</b>
User could read the test cases and understand the requirements implemented?		
no help needed		
<b>User had trouble with:</b>	<b>Problem</b>	
<b>Scenarios</b>	no help needed	
<b>Activity inputs</b>	no help needed	
<b>Order Assertion 1</b>	no help needed	
<b>Order Assertion 2</b>	no help needed	
<b>State Assertion 1</b>	no help needed	
<b>State Assertion 2</b>	no help needed	
<b>State Assertion 3</b>	no help needed	
<b>State Assertion 4</b>	no help needed	

<b>Special questions asked by the user - interesting notes:</b>		
<b>Test Results</b>		
<b>Time:</b>	<b>11:35 - 11:40</b>	
User understood results?	yes	
User found all the bugs in the activity?	yes	
User could suggest corrections needed?	could not suggest the solution but knew exactly what was the cause of the error	
<b>Special questions asked by the user - interesting notes:</b>		
it might be nice to have parameters in OCL supported		

<b>Part I</b>	
<b>ACTIVITY: CheckCredentials</b>	<b>Time: 15:00 - 15:30</b>
The functionality implemented by the activity was understandable to the user without any help?	
no help needed	
User could not understand:	Problem
<b>Component:</b> ReadStructuralFeatures	no help needed
<b>Component:</b> CallBehaviorActions	no help needed
<b>Component:</b> DecisionNodes	no help needed
<b>Component:</b> Fork	no help needed
<b>Component:</b> ActivityParameterNode	no help needed
<b>Component:</b> ValueSpecificationActions	no help needed
<b>Special questions asked by the user - interesting notes:</b>	
<b>Test cases and scenarios</b>	
User could understand the requirements for specifying a test case without any help?	
User had trouble with:	Problem
Scenarios	no help needed
Activity inputs	forgot to set values
Order Assertion 1	no help needed
Order Assertion 2	no help needed
State Assertion 1	no help needed
State Assertion 2	no help needed
<b>Special questions asked by the user - interesting notes:</b>	

<b>ACTIVITY: ConfirmOrder</b>		<b>Time:</b>	<b>15:40 - 16:30</b>
The functionality implemented by the activity was understandable to the user without any help?			
no help needed			
<b>User could not understand:</b>		<b>Problem</b>	
<b>Component:</b>	ReadStructuralReatureActions	no help needed	
<b>Component:</b>	RemoveStructuralFeatureAction	no help needed	
<b>Component:</b>	CreateObjectAction	no help needed	
<b>Component:</b>	DestroyObjectAction	no help needed	
<b>Component:</b>	ExpansionRegion	no help needed	
<b>Component:</b>	AddStructuralFeatureAction	no help needed	
<b>Component:</b>	ReadSelfAction	no help needed	
<b>Component:</b>	Fork	no help needed	
<b>Component:</b>	CallOperationAction	no help needed	
<b>Special questions asked by the user - interesting notes:</b>			
<b>Test cases and scenarios</b>			
User could understand the requirements for specifying a test case without any help?			
<b>User had trouble with:</b>		<b>Problem</b>	
Scenarios		forgot initialize	
Activity inputs		no help needed	
Context		forgot to set on first run	
State Assertion 1		no help needed (finally not used)	
State Assertion 2		referred to action removeCart	
State Assertion 3		referred to action createOrderLine then to setCustomer	
<b>Special questions asked by the user - interesting notes:</b>			
links and objects should be orderless in a scenario			

<b>Part II</b>		
<b>ACTIVITY: GetCart</b>	<b>Time:</b>	<b>16:35 - 16:45</b>
The functionality implemented by the activity was understandable to the user without any help?		
no help needed		
<b>User could not understand:</b>	<b>Problem</b>	
<b>Component:</b>	ReadStructuralFeatures	no help needed
<b>Component:</b>	CallBehaviorActions	no help needed
<b>Component:</b>	CreateObject	no help needed
<b>Component:</b>	DecisionNodes	no help needed
<b>Component:</b>	ValueSpecificationActions	no help needed
<b>Component:</b>	Fork	no help needed
<b>Component:</b>	AddStructuralFeatureAction	no help needed
<b>Special questions asked by the user - interesting notes:</b>		
<b>Test cases and scenarios</b>	<b>Time:</b>	<b>16:45 - 17:00</b>
User could read the test cases and understand the requirements implemented?		
no help needed		
<b>User had trouble with:</b>	<b>Problem</b>	
<b>Scenarios</b>	no help needed	
<b>Activity inputs</b>	no help needed	
<b>Order Assertion 1</b>	no help needed	
<b>Order Assertion 2</b>	no help needed	
<b>State Assertion 1</b>	no help needed	
<b>State Assertion 2</b>	no help needed	
<b>State Assertion 3</b>	no help needed	
<b>State Assertion 4</b>	no help needed	

<b>Special questions asked by the user - interesting notes:</b>	
<b>Test Results</b>	<b>Time:</b>
User understood results?	yes
User found all the bugs in the activity?	no
User could suggest corrections needed?	no
<b>Special questions asked by the user - interesting notes:</b>	

<b>Part I</b>	
<b>ACTIVITY: CheckCredentials</b>	<b>Time: 18:25 - 18:40</b>
The functionality implemented by the activity was understandable to the user without any help?	
no help needed	
User could not understand:	Problem
<b>Component:</b> ReadStructuralFeatures	no help needed
<b>Component:</b> CallBehaviorActions	no help needed
<b>Component:</b> DecisionNodes	no help needed
<b>Component:</b> Fork	no help needed
<b>Component:</b> ActivityParameterNode	no help needed
<b>Component:</b> ValueSpecificationActions	no help needed
<b>Special questions asked by the user - interesting notes:</b>	
<b>Test cases and scenarios</b>	
User could understand the requirements for specifying a test case without any help?	
no help needed	
User had trouble with:	Problem
Scenarios	no help needed
Activity inputs	no help needed
Order Assertion 1	no help needed
Order Assertion 2	no help needed
State Assertion 1	no help needed
State Assertion 2	no help needed
<b>Special questions asked by the user - interesting notes:</b>	

<b>ACTIVITY: ConfirmOrder</b>		<b>Time:</b>	<b>18:40 - 18:55</b>
The functionality implemented by the activity was understandable to the user without any help?			
no help needed			
<b>User could not understand:</b>		<b>Problem</b>	
<b>Component:</b>	ReadStructuralReatureActions	no help needed	
<b>Component:</b>	RemoveStructuralFeatureAction	no help needed	
<b>Component:</b>	CreateObjectAction	no help needed	
<b>Component:</b>	DestroyObjectAction	no help needed	
<b>Component:</b>	ExpansionRegion	no help needed	
<b>Component:</b>	AddStructuralFeatureAction	no help needed	
<b>Component:</b>	ReadSelfAction	no help needed	
<b>Component:</b>	Fork	no help needed	
<b>Component:</b>	CallOperationAction	no help needed	
<b>Special questions asked by the user - interesting notes:</b>			
<b>Test cases and scenarios</b>			
User could understand the requirements for specifying a test case without any help?			
<b>User had trouble with:</b>		<b>Problem</b>	
<b>Scenarios</b>		one mistake with setting an end of a link	
<b>Activity inputs</b>		no help needed	
<b>Context</b>		forgoten but corrected after first run	
<b>State Assertion 1</b>		little uncertain how to reach a property	
<b>State Assertion 2</b>		no help needed	
<b>State Assertion 3</b>		was trying to compare number of cart items with order lines	
<b>Special questions asked by the user - interesting notes:</b>			

<b>Part II</b>		
<b>ACTIVITY: GetCart</b>	<b>Time:</b>	<b>19:40 - 19:42</b>
The functionality implemented by the activity was understandable to the user without any help?		
no help needed		
<b>User could not understand:</b>	<b>Problem</b>	
<b>Component:</b>	ReadStructuralFeatures	no help needed
<b>Component:</b>	CallBehaviorActions	no help needed
<b>Component:</b>	CreateObject	no help needed
<b>Component:</b>	DecisionNodes	no help needed
<b>Component:</b>	ValueSpecificationActions	no help needed
<b>Component:</b>	Fork	no help needed
<b>Component:</b>	AddStructuralFeatureAction	no help needed
<b>Special questions asked by the user - interesting notes:</b>		
<b>Test cases and scenarios</b>	<b>Time:</b>	<b>19:42 - 20:00</b>
User could read the test cases and understand the requirements implemented?		
<b>User had trouble with:</b>	<b>Problem</b>	
Scenarios	no problem	
Activity inputs	no problem	
Order Assertion 1	no problem	
Order Assertion 2	no problem	
State Assertion 1	no problem	
State Assertion 2	no problem	
State Assertion 3	no problem	
State Assertion 4	no problem	

<b>Special questions asked by the user - interesting notes:</b>		
<b>Test Results</b>		
<b>Time:</b>	<b>20:00 - 20:05</b>	
User understood results?	yes	
User found all the bugs in the activity?	no	
User could suggest corrections needed?	no	
<b>Special questions asked by the user - interesting notes:</b>		

Part I		
<b>ACTIVITY: CheckCredentials</b>	<b>Time:</b>	<b>11:30 - 11:45</b>
The functionality implemented by the activity was understandable to the user without any help?		
no help needed		
<b>User could not understand:</b>	<b>Problem</b>	
<b>Component:</b>	ReadStructuralFeatures	no help needed
<b>Component:</b>	CallBehaviorActions	no help needed
<b>Component:</b>	DecisionNodes	no help needed
<b>Component:</b>	Fork	no help needed
<b>Component:</b>	ActivityParameterNode	no help needed
<b>Component:</b>	ValueSpecificationActions	no help needed
<b>Special questions asked by the user - interesting notes:</b>		
<b>Test cases and scenarios</b>		
User could understand the requirements for specifying a test case without any help?		
no help needed		
<b>User had trouble with:</b>	<b>Problem</b>	
Scenarios	no problem	
Activity inputs	no problem	
Order Assertion 1	no problem	
Order Assertion 2	no problem	
State Assertion 1	no problem	
State Assertion 2	no problem	
<b>Special questions asked by the user - interesting notes:</b>		

<b>ACTIVITY: ConfirmOrder</b>		<b>Time:</b>	<b>10:45 - 11:35</b>
The functionality implemented by the activity was understandable to the user without any help?			
no help needed			
<b>User could not understand:</b>		<b>Problem</b>	
<b>Component:</b>	ReadStructuralReatureActions	no problem	
<b>Component:</b>	RemoveStructuralFeatureAction	no problem	
<b>Component:</b>	CreateObjectAction	no problem	
<b>Component:</b>	DestroyObjectAction	no problem	
<b>Component:</b>	ExpansionRegion	no problem	
<b>Component:</b>	AddStructuralFeatureAction	no problem	
<b>Component:</b>	ReadSelfAction	no problem	
<b>Component:</b>	Fork	no problem	
<b>Component:</b>	CallOperationAction	no problem	
Special questions asked by the user - interesting notes:			
<b>Test cases and scenarios</b>			
User could understand the requirements for specifying a test case without any help?			
<b>User had trouble with:</b>		<b>Problem</b>	
<b>Scenarios</b>		source and target of a link switched, corrected before running the test	
<b>Activity inputs</b>		no problem	
<b>Context</b>		no problem	
<b>State Assertion 1</b>		no problem	
<b>State Assertion 2</b>		no problem	
<b>State Assertion 3</b>		no problem	
Special questions asked by the user - interesting notes:			

<b>Part II</b>		
<b>ACTIVITY: GetCart</b>	<b>Time:</b>	<b>12:20 - 12:25</b>
The functionality implemented by the activity was understandable to the user without any help?		
no help needed		
<b>User could not understand:</b>	<b>Problem</b>	
<b>Component:</b>	ReadStructuralFeatures	no help needed
<b>Component:</b>	CallBehaviorActions	no help needed
<b>Component:</b>	CreateObject	no help needed
<b>Component:</b>	DecisionNodes	no help needed
<b>Component:</b>	ValueSpecificationActions	no help needed
<b>Component:</b>	Fork	no help needed
<b>Component:</b>	AddStructuralFeatureAction	no help needed
<b>Special questions asked by the user - interesting notes:</b>		
<b>Test cases and scenarios</b>	<b>Time:</b>	<b>12:25 - 12:45</b>
User could read the test cases and understand the requirements implemented?		
no help needed		
<b>User had trouble with:</b>	<b>Problem</b>	
<b>Scenarios</b>	no problem	
<b>Activity inputs</b>	no problem	
<b>Order Assertion 1</b>	no problem	
<b>Order Assertion 2</b>	no problem	
<b>State Assertion 1</b>	no problem	
<b>State Assertion 2</b>	no problem	
<b>State Assertion 3</b>	no problem	
<b>State Assertion 4</b>	no problem	

<b>Special questions asked by the user - interesting notes:</b>	
<b>Test Results</b>	<b>Time: 12:45 - 12:50</b>
User understood results?	yes
User found all the bugs in the activity?	no
User could suggest corrections needed?	no
<b>Special questions asked by the user - interesting notes:</b>	

<b>Part I</b>	
<b>ACTIVITY: CheckCredentials</b>	<b>Time: 11:45 - 12:30</b>
The functionality implemented by the activity was understandable to the user without any help?	
no help needed	
User could not understand:	Problem
<b>Component:</b> ReadStructuralFeatures	no help needed
<b>Component:</b> CallBehaviorActions	no help needed
<b>Component:</b> DecisionNodes	no help needed
<b>Component:</b> Fork	no help needed
<b>Component:</b> ActivityParameterNode	no help needed
<b>Component:</b> ValueSpecificationActions	no help needed
<b>Special questions asked by the user - interesting notes:</b>	
<b>Test cases and scenarios</b>	
User could understand the requirements for specifying a test case without any help?	
no help needed	
User had trouble with:	Problem
Scenarios	tried to specify primitive types in a scenario
Activity inputs	was not sure how to specify inputs
Order Assertion 1	no problem
Order Assertion 2	no problem
State Assertion 1	no problem
State Assertion 2	no problem
<b>Special questions asked by the user - interesting notes:</b>	

<b>ACTIVITY: ConfirmOrder</b>		<b>Time:</b>	<b>12:30 - 14:30</b>
The functionality implemented by the activity was understandable to the user without any help?			
no help needed			
<b>User could not understand:</b>		<b>Problem</b>	
<b>Component:</b>	ReadStructuralReatureActions	no problem	
<b>Component:</b>	RemoveStructuralFeatureAction	no problem	
<b>Component:</b>	CreateObjectAction	no problem	
<b>Component:</b>	DestroyObjectAction	no problem	
<b>Component:</b>	ExpansionRegion	no problem	
<b>Component:</b>	AddStructuralFeatureAction	no problem	
<b>Component:</b>	ReadSelfAction	no problem	
<b>Component:</b>	Fork	no problem	
<b>Component:</b>	CallOperationAction	no problem	
Special questions asked by the user - interesting notes:			
<b>Test cases and scenarios</b>			
User could understand the requirements for specifying a test case without any help?			
<b>User had trouble with:</b>		<b>Problem</b>	
Scenarios		one mistake with specifying a link but realized after running	
Activity inputs		no problem	
Context		forgot to set	
State Assertion 1		minor problem with time frame specification	
State Assertion 2		no problem	
State Assertion 3		needed to mention OCL	
Special questions asked by the user - interesting notes:			
each expression created within its own test			

<b>Part II</b>		
<b>ACTIVITY: GetCart</b>		<b>Time: 14:30 - 14:35</b>
The functionality implemented by the activity was understandable to the user without any help?		
no help needed		
<b>User could not understand:</b>		<b>Problem</b>
<b>Component:</b>	ReadStructuralFeatures	no problem
<b>Component:</b>	CallBehaviorActions	no problem
<b>Component:</b>	CreateObject	no problem
<b>Component:</b>	DecisionNodes	no problem
<b>Component:</b>	ValueSpecificationActions	no problem
<b>Component:</b>	Fork	no problem
<b>Component:</b>	AddStructuralFeatureAction	no problem
<b>Special questions asked by the user - interesting notes:</b>		
<b>Test cases and scenarios</b>		<b>Time: 14:35 - 14:50</b>
User could read the test cases and understand the requirements implemented?		
<b>User had trouble with:</b>		<b>Problem</b>
Scenarios		no problem
Activity inputs		no problem
Order Assertion 1		no problem
Order Assertion 2		no problem
State Assertion 1		no problem
State Assertion 2		no problem
State Assertion 3		no problem
State Assertion 4		no problem

<b>Special questions asked by the user - interesting notes:</b>	
<b>Test Results</b>	<b>Time: 14:50 - 14:55</b>
User understood results?	yes
User found all the bugs in the activity?	no
User could suggest corrections needed?	no
<b>Special questions asked by the user - interesting notes:</b>	
it is quite hard to understand the workings of fuml and without that knowledge it is hard to write tests note: if a null is provided by a pin (actually its an empty list) can a size operator be called on it	

<b>Part I</b>	
<b>ACTIVITY: CheckCredentials</b>	<b>Time: 15:15 - 15:40</b>
The functionality implemented by the activity was understandable to the user without any help?	
no help needed	
User could not understand:	Problem
<b>Component:</b> ReadStructuralFeatures	no help needed
<b>Component:</b> CallBehaviorActions	no help needed
<b>Component:</b> DecisionNodes	no help needed
<b>Component:</b> Fork	no help needed
<b>Component:</b> ActivityParameterNode	no help needed
<b>Component:</b> ValueSpecificationActions	no help needed
<b>Special questions asked by the user - interesting notes:</b>	
<b>Test cases and scenarios</b>	
User could understand the requirements for specifying a test case without any help?	
forgot to specify a customer in a scenario and the results were a bit hard to understand	
User had trouble with:	Problem
Scenarios	no help needed
Activity inputs	no help needed
Order Assertion 1	was misunderstood for state assertion
Order Assertion 2	was misunderstood for state assertion
State Assertion 1	no help needed
State Assertion 2	no help needed
<b>Special questions asked by the user - interesting notes:</b>	

<b>ACTIVITY: ConfirmOrder</b>		<b>Time:</b>	<b>15:40 - 16:20</b>
The functionality implemented by the activity was understandable to the user without any help?			
no help needed			
<b>User could not understand:</b>		<b>Problem</b>	
<b>Component:</b>	ReadStructuralReatureActions	no help needed	
<b>Component:</b>	RemoveStructuralFeatureAction	no help needed	
<b>Component:</b>	CreateObjectAction	no help needed	
<b>Component:</b>	DestroyObjectAction	no help needed	
<b>Component:</b>	ExpansionRegion	no help needed	
<b>Component:</b>	AddStructuralFeatureAction	no help needed	
<b>Component:</b>	ReadSelfAction	it was hard to figure out what is the context and of which type	
<b>Component:</b>	Fork	no help needed	
<b>Component:</b>	CallOperationAction	no help needed	
Special questions asked by the user - interesting notes:			
<b>Test cases and scenarios</b>			
User could understand the requirements for specifying a test case without any help?			
no help needed			
<b>User had trouble with:</b>		<b>Problem</b>	
<b>Scenarios</b>		no help needed	
<b>Activity inputs</b>		no help needed	
<b>Context</b>		no help needed	
<b>State Assertion 1</b>		no help needed	
<b>State Assertion 2</b>		no help needed	
<b>State Assertion 3</b>		no help needed	
Special questions asked by the user - interesting notes:			

<b>Part II</b>		
<b>ACTIVITY: GetCart</b>	<b>Time:</b>	<b>16:20 - 16:30</b>
The functionality implemented by the activity was understandable to the user without any help?		
no help needed		
<b>User could not understand:</b>	<b>Problem</b>	
<b>Component:</b>	ReadStructuralFeatures	no help needed
<b>Component:</b>	CallBehaviorActions	no help needed
<b>Component:</b>	CreateObject	no help needed
<b>Component:</b>	DecisionNodes	no help needed
<b>Component:</b>	ValueSpecificationActions	no help needed
<b>Component:</b>	Fork	no help needed
<b>Component:</b>	AddStructuralFeatureAction	no help needed
<b>Special questions asked by the user - interesting notes:</b>		
<b>Test cases and scenarios</b>	<b>Time:</b>	<b>16:30 - 16:40</b>
User could read the test cases and understand the requirements implemented?		
no help needed		
<b>User had trouble with:</b>	<b>Problem</b>	
<b>Scenarios</b>	no help needed	
<b>Activity inputs</b>	no help needed	
<b>Order Assertion 1</b>	no help needed	
<b>Order Assertion 2</b>	no help needed	
<b>State Assertion 1</b>	no help needed	
<b>State Assertion 2</b>	no help needed	
<b>State Assertion 3</b>	no help needed	
<b>State Assertion 4</b>	no help needed	

<b>Special questions asked by the user - interesting notes:</b>	
<b>Test Results</b>	<b>Time: 16:40 - 16:45</b>
User understood results?	yes
User found all the bugs in the activity?	no
User could suggest corrections needed?	no
<b>Special questions asked by the user - interesting notes:</b>
